

Medical Specialty Drug List for the OhioHealthy Medical Plan effective April 1, 2024

Authorizations

Specialty Drugs that process through the **medical benefit** will require clinical review if included on the attached list. All specialty drug prior authorizations that process through the medical benefit are routed to Archimedes.

If a medication name is listed but not the HCPCS code being requested, please submit PA to ensure coverage. Consult CMS resources for the most recent updates to HCPCS codes. This is not a formulary, nor intended for indication of coverage. Medications billed as Inpatient or ED are not subject to authorization review and do not need to be submitted.

Medical Benefit Prior Authorizations

For medical benefit specialty medication prior authorizations, please use the forms posted on the OhioHealthy website OR click associated link [Archimedes Specialty Drug Authorization Form](#) and fax to 866-491-6971.

Pharmacy Benefit Prior Authorizations

This list only applies to the medications requiring PA through the Medical Benefit. For specialty drugs through the pharmacy benefit, submit the claim to an in-network pharmacy for processing.

Search Tip: This document is organized in alphabetical order by generic name. You can search quickly by brand, generic, or HCPCS Code by using the CTRL + F search function from your keyboard. If you do not know the correct spelling, you can start your search by entering the first few letters of the drug name.

This document is only official and current on the [OhioHealthyPlans.com](#) website. Drug list is subject to change. Use of older forms may be rejected and delay processing and care to members.
